

The Danville Dental Discount Club program was created to make dental care more affordable for the patients of the practice. Our discount plan encourages proper dental care by promoting early problem detection and routine maintenance. Members save money on simple preventive treatments such as cleanings and x-rays as well as complex treatments such as root canals, crowns, veneers, bridges and orthodontic work. This program also includes twice-a-year cleanings and annual x-rays at an even greater discount costing the member only \$50 per visit. Children will also receive fluoride treatments twice-a-year at no extra charge.

There are no annual limits on use and everyone is accepted, regardless of age or the condition of their teeth. It is a great option for people who do not have access to a dental plan through an employer. The Danville Dental Discount Club does not have a waiting period, so you can begin saving right away on crowns, root canals, dentures, cosmetic dentistry and more.

Your actual benefit comes in the form of a “discount” off each billable service. This can come in the form of 10% to 20% off your cost, depending on your method of payment for the

charges for the visit. Unlike insurance, your dental bill is not sent to an insurance carrier to process, negotiate down, and return to you. You will know at the time of service how much your visit has been discounted and receive immediate savings at the time of service. You pay Danville Dental Associates directly at a lower price for the services rendered - and you’re done! No worrying about complicated paperwork or waiting for payment reimbursements.

There is no application to complete. Simply pay the annual fee in full in advance, sign the plan agreement and your account is activated. The Danville Dental Discount Club program annual fee is \$100 each for adults 18 years of age and older and \$75 each for children 17 years of age and younger.

Members must pay their cost in full on the date the dental services are rendered.

Danville Dental Discount Club membership expires after 12 months from date of purchase and requires payment of the annual membership fee to continue receiving benefits in the plan.

For the annual membership fee and payments of \$50 for each cleaning, members realize a savings of \$65 - \$167 per year for adults and \$104 per year for children.
